Bachelor of Information Tech. Interactive Multimedia & Design
Carleton University,
Ottawa, Ontario

KEY SKILLS

- React/React Native/Redux
- HTML/CSS/SCSS/Tailwind
- JavaScript/ES6+/TypeScript
- Angular/NgRx
- Django/Python
- WordPress/PHP/MySQL
- REST/Git/NPM

PROFESSIONAL EXPERIENCE

Mobile/Front End Developer

Information Mediary Corp.

Ottawa, Ontario

August 2021 – Present

- Lead front end developer; assembled and added **user-facing** and **internal UI features to build the company medical adherence mobile app**
- Developed cross-platform mobile applications with **React Native**, delivering consistent performance on both **iOS** and **Android**.
- Utilized **Expo** and **Firebase** for authentication, push notifications, analytics, and cloud storage integration.
- **Integrated native device features on Android & iOS** (Camera, Geolocation, Push Notifications, Secure Storage) through Expo SDKs and custom modules.
- **Optimized app performance in Expo projects** by applying lazy loading, Hermes engine, and bundle splitting for faster startup times.
- **Tested and debugged React Native apps on Android & iOS emulators and physical devices**, ensuring compatibility across multiple OS versions and screen sizes.
- **Sole developer** on the company site redevelopment that led to an **increase in leads from rare to almost 1 daily**
- Technologies: **React/React Native/Redux, HTML/SCSS, Python/Django**

UI Developer

Sectigo

Ottawa, Ontario

March 2020 – August 2021

- Developed and maintained an internal SSL certificate web app using **Sectigo**, ensuring consistent, accessible user experiences across **enterprise-scale applications**
- Created and deployed **two reusable internal services** to streamline certificate validation workflows and **API integrations**, improving development speed and reducing redundancy across multiple teams
- Technologies: **Angular/NgRx, TypeScript, HTML, SCSS**

Front End Developer

Wikileaf

Ottawa, Ontario

Feb 2019 - Feb 2020 (Contract)

- Implemented new features and UI for the **v4 company site redevelopment**, enhancing performance and ensuring consistency across a high-traffic consumer platform
- Refactored legacy code into modular, reusable components, reducing development time for new features
- Technologies: **Angular/NgRx, TypeScript, HTML/SCSS**
